Supplemental Information

Description of Entry
The judges will refer to the Description of Entry to compose commentary about the finalist and winning entries (max. 700 characters).

Summary
The Entry Summary is basically the Marketing Plan for the entry. The Entry Summary is limited to four (2,100 character max) sections:
1. Situation and Objectives
2. Action
3. Results
4. Budget and Resulting Cost-Effectiveness

We recommend bullet points rather than narrative paragraphs.

1. Situation and Objectives
Provide background information on what inspired you to create and implement the programme or project. Discuss unique problems or opportunities that influenced your goals, strategies, and tactics. For the Digital/Emerging Technology category, provide information on your centre or company's situation and what led you to use technology as a primary tool in the marketing plan. Explain the rationale for choosing one or a combination of the digital tools and provide your key metrics or goals for driving consumer behavior from reach to engagement to shopping, etc.

2. Action
Give a detailed description of the “action” (something performed or done) that took place based on the situation at your shopping centre or company. For the Digital/Emerging Technology category, provide the implementation plan and components of the actions. Explain the creative decision making process and the innovative ways in which you used technology. Be clear on the use of each digital channel as it relates back to your goals and objectives.
3. Results
Results should be specific and quantitative. Show documented facts from the implementation. Post sales gains as percentages, defined as either comparable sales or total sales, and include the period of measurement (where possible, show actual numbers upon which percentages are based). You may also include traffic counts. If you used more than one digital tool, break out results for each.

4. Budget and Resulting Cost-Effectiveness
A one-page, detailed list of dollars spent to implement your plan. All expenses, including primary and secondary expenses, must be included. This should include all production costs, media, and labour costs, fees, services and incidentals. List donated expenses separately, and do not include with actual expense totals. Explanation should accompany any unusual cost savings or efficiencies. Sponsorship funds received should not be subtracted from total expenses when calculating the percentage of budget allocated. Please include all creative fees and agency retainers in your expense summary.

NOTE: You must show expenses as a percentage of your total annual marketing budget. Failure to do so may negatively affect the entry’s score.
